# A Magical Menopause Seminar

Take a Day for the  
Rest of Your Life

**Dr Maura McGill**

## Have you had enough of hot flushes, vagueness, poor memory, no sleep and no libido?

Many women find the symptoms of menopause distressing with hot flushes, sleepless nights and irritability affecting their lives. Some people are enduring a terrible menopause and find that ill fitting molecules like **synthetic hormones are not helping.**

Did you know that **only** 1 or 2 out of every 1000 women need to take harsh synthetics to eliminate their hot flushes and this is usually only because the hormones have been out of balance for so long that they need a sledge hammer to quiet them down!

**With over 30 years experience treating hundreds of women worldwide,** teaching them how to manage their menopause naturally without the drug companies.

## Learn how to have a magical menopause!
